MORE ACTIVITY APPEARS IN THE STOCK MARKET.

EFFORT TO PUT UP PRICES PARTLY SUCCESSFUL.

Heavy Selling of Steel Toward Close of Session Makes Con-

New York, July 7 .- There was more appearance of speculative interest in to-day's stock market. The resistance of the market in the face of duliness seemed to encourage an attempt to put up prices. There was no news to account for the point rise in St. Paul and Missouri Pacific on professional operations. Despite this not very striking demonstration the market was but a colorless affair up to the last hour, and the volume of dealings showed no appreciations. ble improvement over that of yesterday. There was some indication of a speculative contest in the last hour, in which neither side gave signs of any great strength. The market had begun to sag off from inanition, but had stiffened again, when a heavy to pour upon the market. The common was carried a point under last night, the presuffered to a less extent. Nothing was known to the public at the time of the showing for the quarter as to earnings, but the assembling of the directors of the corporation to consider the report caused a strong construction in the boardroom that the tape was giving an accurate forecast of its character. ferred %, and the second mortgage bonds

SENTIMENT DISCOURAGED. The fear that an unfavorable showing of earnings was forthcoming discouraged the speculative sentiment, and prices gave may throughout. The closing was in conse-

throughout. The closing was in consequence duil and easy. The early firmness was due, as much as anything, to the fact that yesterday's gold exports failed to bring any selling pressure on the market. The shipment of gold from Australia for San Francisco and the beginning of the inflow of the Klondike product counteracted the inflowned of the klondike product counteracted the inflowned of the word of gold, however, arouses slight misgivings while the demand for money for immediate use is so light. It is considered probable that any rise in the money rate would check the gold outgo, but in the present condition further shipments would not cause surprise. Satisfaction is felt in all departments of the financial world at the letting out of the inflation in the cotton market, which went a step further to-day. But it is not expected that the curtailed demand for cotton will revive in any degree until conditions in that market become more placid. The weekly cotton report was distinctly favorable and was so far a help to stocks. The news of the corn crop sless was highly favorable, but the rise in the price of corn detracted from its influence.

WAITING ON CROPS.

The news of the wheat crop was not considered so reassuring. The monthly report of the Agricultural Department, due on Fridition of the cereal crops. A break of 3 points in Standard Rope and Twine 6s was due to fears that the interest would not be paid. This, with a break of 5% in United clearings 8,0%,18; balances 1851,953.

410 AND 412 OLIVE STREET. States Cast Iron Pipe and of less amounts in some minor industries, and the weakness of International Mercantile Marine stocks on the curb, was an unsettling influence on on the curb, was an unsettling influence on the speculation. Not much attention was paid to the late rise in call loans of 5 per cent, although the outward movement of gold and a significant drop in New York exchange at Chicago to 16 cents discount may indicate further demands upon New York banking reserves.

The bond market was irregular. A feature is the sagging tendency of some of the high-grade issues. Total sales, par value, \$1.00.00. United States bonds were all unchanged on the last call.

Wall Street Gossip.

Poreign - American stocks were dull in London. There was some pressure, attributed to seiling orders from New York, but cables received inid stress only on the stagnation there. Prices came slightly lower, but arbitrage houses had few orders. It was estimated that between them all they bought 1,000 shares and later sold possibly 1,000.

A. C. P.—The early fractional declines in Copper were on selling by Dick Bros. & Co., followed by scattering traders. The movement was accompanied by much talk of unfavorable trade outlook, labor troubles in Montana and the abandonment of the bull campaign in the stock by strong interests. On the way down support was metand the price railled easily. The room heard that Harry Content's buying was in the nature of discretionary supporting orders "for the inside."

Missouri Pacific—The leader of the forenoon rally was Missouri Pacific. The stock rose on the resumption of buil operations by George P. Butler & Bo., followed by scattering room traders and commission-houses. The talk of decidedly higher prices for the stock continued and was said to come from insiders. There were again rumors of an increased dividend rate at the end of the year. But this was not encouraged in official circles.

TRACTION ISSUES HAVE SOME SUPPORT. Banking Issues Are Neglected and There Is Little Outside Investment Interest. Yesterday's session of the Stock Exchange

STOCK VALUES FIRM

was dull and without special feature. Tranet was in moderate demand with an early advance to \$23.75, and sales later at \$21.5 \$82,25 and \$52,3745.
There continues to be little interest in the banking list, and trust company issues are practically neglected. Mechanics' Natio

early in the session was taken at \$272.50, but subsequently eased off to \$271. In the miscellaneous list Missouri-Edison 5s were the strong spot at par. Central Coal and Coke common was steady at \$63.75.

REPUBLIC SPECIAL.

New York. July 7.—Live Poultry—Receipts to-day were 12 cars Western. 1 Southern and 1 Southerstorn and east than 1 car of Southern by express. The demand from the East side market was light, owing to a city ordinance which we may be the unleading of stock before Tuesday afternoon, but there was a healthier feel-international account. Powis cleared at 12c and Western chickens at 12c. Southern springs worked east to the wason boys at 14c. Turkeys steady. Phecks'in fair demand, but seese slow. Pigeons slow. Quotatiens unchanged.

Drussed Poultry—Receipts to-day, Sis bkg2. The fresh receipts to-day were heavy and as most of the stock that arrived late yesterday was in first hunds this morning the available supply was somewhat in excess of the slow trade. As all the poultry was skilled and packed in warm weather and feed too sparingly, there was comparatively little really sound stock of any description and average best fowls were pressed to sale at 12c, while it was possible to realing 15c and only finest reached 12c. The demand for scalded chickens was outle disappointing and confined to fancy large down the demand. Squabs not in heavy sumply. Here was comparatively and small scalded springs were neglected. Dry-picked broilers in good demand. Squabs not in heavy sumply. Western scalded prime, 12c. Old roceies. Southern in good demand. Squabs not in heavy sumply. Western scalded prime, 12c. Old roceies. Southern scalded prime, 13c. old toms do., 18010c. Other quotations unchanged.

New York Curb Market.

REPUBLIC SPECIAL.

New York, July 7.—The curb market to-day was extremely dull and in general showed a downward tendency. Fluctuations, however, were not important, the only feature of interest being the weakness in International Mercantile Marine common, which sold at the lowest price ever recorded for it. Total trades were about 20,000 shares.

Northern Securities was a little more active to-day than on yesterday. It sold from 24% up to 31% own to 20%, then up to 31%. SUMMARY OF ST. LOUIS

as favorable to the selling side, by for the greater number of speculators were in the market with bids, and the general desire to buy was so strong that all offerings were eagerly snapped up on the advance. While professionals were active there was a considerable outside demand through local commission-houses. While the advance had some car marks of manipulation the bulls seemed confident of the strength of their position, especially in view of the possibility of drought in the sections where the crop has been most in need of rain. The Weather Bureau report, while generally favorable. said that the winter crop had shown further deterioration and that the yield in the Northwest might prove disappointing. Buying in Minneapolis and Chicago encouraged bullish speculations here. Foreign markets were fairly strong.

Corn was a decidedly strong spot. Here too a great deal of the buying was purely speculative, but there was also a good shipping and export demand for cash grades. Sept. wheat opened be up and closed Pac up.

Sept. corn opened %@14c up and closed 14@1%c up.

Sept. cats closed Ic up. Receipts of produce were moderate and prices of fruits and vegetables were about Local securities were dull. Tractions had some support, and bank stocks were neg-

Yesterday's bank clearings were \$8,96,148; balances, \$833,968. Discount rates were steady between 2 and 6 per cent. Spot cotton was quiet and 12c lower in the local market.

WHEAT AGAIN ADVANCES ON SPECULATIVE BUYING.

CORN ALSO WAS A STRONG SPOT.

Fear of Dry Weather and Strength in Other Markets Were the

Bullish Factors.

Live Foultry—Old chickens, hens, per lb., Sign reasters ic., spring cheekens, average receipts, larger sign damas Sc., spring grees Sc., spring trackers, are not selected by the blackers and the presentative boom on with more behind it than the one which collapsed last week. Though the Weather Bureau report was favorable in a general way it showed some deterioration of the winter showed some some statements and the showed report was favorable in a general way it showed some deterioration of the winter crop and indicated that the spring yield was disappointing. Fear of continued dry weathr in the sections where rain was most needed sustained the values of the active

option. Good buying at Minneapolis and Chicago helped the upward movement toward the end of the session.

Bradstreet's report the available supply of wheat east of the Rockies for the past week at 1,765,000 hu, decrease and stocks in and affort for Europe decreased 1,399,000 hu, making the world's visible supply decrease 2,005,000 hu, as against a decrease of 8,967,000 hu, in 1992.

Sept. wheat opened \$\frac{1}{2}\$c off and sold at:

75\frac{1}{2}\$c, 15\frac{1}{2}\$c, 15\frac{1}

Corn reports on the crop condition were generally unfavorable. There was a good demand at Chicago, and St. Louis feil in line carly. The lowa State estimate was regarded as distinctly bullish.
